

March 17, 2020

Dear Valued Customer,

Due to the restrictions from our local and federal agencies regarding group gatherings and our responsibility to the health of this community, we have determined that it is necessary to suspend the current run of our show, *Noir Point Blank*. Our production was slated to run through April 18, 2020 and we are still open to the possibility of picking up and extending the run of this show. With so much yet unknown, we will not make any final decisions at this stage.

If you have a reservation for a performance of *Noir Point Blank*, please feel free to call us regarding your options. Of course, we would love to keep your reservation and move it to a future performance of your choice, but we understand that might not be the best option for you. We are committed to working with each patron to ensure satisfaction.

We will continue to strive to make decisions that balance the safety of our staff, customers, and community. Please continue to support your local small businesses during these uncertain times. We are grateful for you.

Stay well and thank you for being a loyal customer.
